Adobe InDesign Interactive PDF Overview Training Course

ADOBE INDESIGN PDF INTERACTIVE COURSE

This InDesign PDF Interactive Training focuses on creating visually appealing and professionally presented .PDF documents. It will teach you how to create and produce various .PDF files including company reports, brochures, manuals and other business documents. Held across the UK this onsite InDesign PDF course is perfect for those wishing to create online interactive content.

ADOBE INDESIGN PDF INTERACTIVE COURSE –

What will I learn?

This InDesign Course will show you step by step how to publish effective PDF content for print and interactive destinations. It is a trainer led course consisting of a mixture of onscreen demonstrations, discussions and hands on exercises including creating a PDF Interactive Slideshow and PDF Interactive Newsletter /Brochure. Starting from scratch by showing you the panels, tools and workspaces the course builds momentum over time and you will learn to put together a number of different PDF documents including interactive forms and digital documents.

Visit the Greta Powell Website
